

THE ROLLING STONEZ SHOW

In a celebration that evokes both nostalgia and a real reminder of why the Rolling Stones are called "The greatest rock and roll band in the world", this ultimate tribute is about the feel, the style and superior quality of the music that we all know as the Stones phenomenal legacy.

The Stonez show has been purposely constructed around that central theme that is the pulse of the Rolling Stones – the songs.

These five gentlemen from around the globe have gathered to enjoy and indulge in what they love; and that is faithfully recreating the sound and style of the Rolling Stones at their very best.

The award winning ensemble features Gary Philpott in a role he was born to play, with a singing voice unrivalled in this country. He struts his stuff as lead singer, a true tribute to Mick Jagger.

Scott Shelley, Lee Carroll, Mario Merlini and Jon Callander support and complement Gary's's uncanny exuberance with a musical feast of grooves, licks and driving rhythms that make the Rolling Stones music so undeniably classic.

The show you will get is packed full of hits from the Stones entire career. Included are Honky Tonk Woman, Jumpin' Jack Flash, Paint It Black, Angie, (I Can't Get No) Satisfaction, and Start Me Up.

Special attention has been paid to retaining an authentic "feel" to the music, including vintage instruments, faithful totally "live" renditions and an energy unsurpassed on any Australian stage.
